

K-Love is a blessing in my community. Since 9/11 I became a Christian to ensure that my salvation is not at risk. It was the most blessing day of my life. K-Love helps me each day by keeping me closer to God, a right that I have to worship him freely. If K-Love were to be displaced by an LPFM broadcaster providing other programming, life would be very different. My son, who listens mostly to rap and rock - has also begun to listen to K-Love and his attitude towards others has changed, this is a great impact on an 8 year old. I want to be sure I can bring up my children by listening to a station that I don't have to worry about the language or type of music. K-Love is also important to the public interest as more people listen to K-Love I do believe stress would be less. People would have an idea that they can worship our Maker through song. In addition, K-Love offers lots of advice and or websites on issues that everyone deal with day to day, such as relationships, marriage, work, etc. I believe K-Love is very valuable and I pay \$40 a month to help them stay on the air in my area. I listen to K-Love on 106.3 in San Marcos. Thank you for your time. Kathy Collier
